

A. Specimen

Service Operations - Specimen Profile - Fixture Record 01
contact details withheld - synthetic fixture - not a real applicant

SUMMARY

Rebuilt the walk-in intake queue and cut median handling time across the counter.
Owned release checks for the kiosk build and wrote the regression list still in use.
Agreed paper stock, duplex defaults and reprint handling with the print desk team.
Ran the weekly service review and tracked every defect through to a closed state.

EXPERIENCE

Service Operations Lead - Specimen Branch

2023 - present

Wrote onboarding notes covering scan, print and document pickup for new counter staff.
Built the daily reporting sheet the branch uses for volume and exception counts.
Handled counter escalations and logged root causes into the monthly summary.
Reviewed vendor documentation and flagged the gaps before the pilot went live.
Introduced a same-day reprint rule that removed the most common repeat visit.
Trained four colleagues on the document handover checklist and its exceptions.

Counter Services Associate - Specimen Branch

2021 - 2023

Reduced paper waste by moving the default job to duplex on the shared queue.
Kept the shift roster and covered absence without extending counter wait times.
Drafted the recovery steps used when the scanner drops a page mid-scan.
Audited the archive folder monthly and cleared items past their retention date.
Set up the exception log so repeat faults were visible instead of anecdotal.
Worked with facilities on queue layout after the second-floor desk was added.

Document Handling Assistant - Specimen Branch

2020 - 2021

Standardised the label format on every completed pickup envelope.
Collected counter fee back each quarter and turned it into three concrete fixes.
Rebuilt the walk-in intake queue and cut median handling time across the counter.
Owned release checks for the kiosk build and wrote the regression list still in use.

EDUCATION

Specimen Polytechnic - Applied Management

2017 - 2021

Agreed paper stock, duplex defaults and reprint handling with the print desk team.
Ran the weekly service review and tracked every defect through to a closed state.
Wrote onboarding notes covering scan, print and document pickup for new counter staff.
